DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-3 and 10-13, in part, drawn to a serine protease inhibitor that binds to the substrate wherein said inhibitor is a mutated protease.

Group II, claim(s) 1, 2, and 10-13, in part, and 4, 5, 6, 7, and 8 drawn to a serine protease inhibitor that binds to the substrate wherein said inhibitor is an anhydridized serine protease.

Group III, claim(s) 1-3 and 10-13, in part, and 9, drawn to a serine protease inhibitor containing at least two types of substances that bind to the substrate.

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical feature for the following reasons: The technical feature linking Groups I-III appears to be that they all relate to proteases inhibitors that act by binding to the protease substrate.

However, Cook et al, 1995 teach an protein that binds to a thrombin receptor at the thrombin binding site, thereby inhibiting the ability of thrombin to bind, cleave, and activate said receptor. In addition, the inhibitors of Groups I-III do not have the same structure. Therefore Groups I-III share no special technical feature as defined by PCT Rule 13.2, they do not define a contribution over the prior art. Accordingly, Groups I-VIII are not so linked by the same or a corresponding special technical feature as to form a single general inventive concept.

Art Unit: 1652

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
